30. September 2021

Invitation to MHKW Magdeburg

Dear Ms Vice President Witkowska,

I hereby cordially invite you as well as the delegation from the City of Inowrocław to MHKW Rothensee, one of our largest waste-to-energy facilities within EEW group. MHKW Rothensee is an outstanding example for a strong and trustful relationship between a city and EEW. We are happy to introduce you not only to the plant technology and the process of thermal waste utilization but also to the recent development of the plant location since the plant has just received the environmental and building permit for large extension project. We have also invited Ms Vice President Sandra Yvonne Stieger from the City of Magdeburg who will join our discussion.

We are prepared to welcome you and the delegation on **4 October 2021** at **12.00** hours with a small lunch at:

Müllheizkraftwerk Rothensee GmbH
Kraftwerk-Privatweg 07
39126 Magdeburg

If there are any questions please don't hesitate to contact me. For your visit a translator has been hired.

Kind regards

Frank Paasche
